2 Basics of Pretrial Assessments

Overview of the Public Safety Assessment (PSA) and Release Conditions Matrix (RCM)

4 Implementation Challenges

5 PSA Resources

Objectives

Understand the development and intended use of the PSA.

Learn how the RCM can assist in pretrial decision-making.

Discuss common challenges in PSA implementation and ways to address them.

Polling Question

What role do you serve in your respective jurisdiction?

- 1. Case Manager
- 2. Court Administrator
- 3. Judicial Officer
- 4. Pretrial Director/Manager/Supervisor
- 5. Pretrial Officer
- 6. Other

Polling Question

Is your jurisdiction currently using the PSA, or does it plan to do so?

- 1. Yes, my jurisdiction is currently using the PSA.
- 2. My jurisdiction is planning on using the PSA.
- 3. No, my jurisdiction is not using and not planning to use the PSA.
- 4. I am not sure.

Basics of Pretrial Assessments

Purpose of Pretrial Assessment

Why do we do pretrial assessment?

To Predict

- Helps identify who is likely to succeed or fail on pretrial release.
- Why predict? Provides an opportunity to intervene and assist before failure occurs.
- Can *inform* pretrial decisions, but <u>do not</u> tell a judicial officer what to do.

Purpose of Pretrial Assessments

Pretrial assessments are a tool, not a decision-maker.

Judges decide to release or detain.

What Do Pretrial Assessment Tools Measure?

Risk of What?

Appearing in court Remaining arrest-free*

How Much Risk?

On a continuum from 1% to 99%

PSA in California

- Used in at least 35 Counties
- In the process of being implemented in 2 counties
- Validated in the pretrial pilot sites

PSA Development and Characteristics

- Built on a strong research base: developed from data from 750,000 cases across the country
- Research-driven: tested hundreds of factors for their statistical relationship to pretrial outcomes
- Focuses on key predictors: used the most predictive factors from the researchcurrent charge, criminal history, and age
- Thoroughly validated: validated on 500,000 new cases in different jurisdictions
- Proven over time: validated in dozens of jurisdictions over the past 10 years

What Makes the PSA Unique?

- Predicts the likelihood of failure to appear and new criminal arrest separately.
- Predicts the likelihood of new violent criminal arrest.
- Assess factors that do not depend on interviews.
- Is applicable anywhere in the United States.
- Is available without cost.

PSA Scores

Factor Points & Score Construction

- Strongest predictive factors are given higher points.
- Factor points differ by outcome (FTA, NCA, NVCA).
- The scores reflect two scales and a potential flag:
 - Failure to Appear: Scale of 1 6
 - New Criminal Arrest: Scale of 1 6
 - New Violent Criminal Arrest: Yes or No "flag"

9. Prior sentence to incarceration		✓			

Failure to Appear (FTA)

FTA refers to a person missing a pretrial court hearing and the court, in response, issuing a warrant, capias, or other similar response.

Failure to Appear: Points			
PSA FACTOR	RESPONSE	POINTS	
Pending charge	No	0	
at the time of the arrest	Yes	1

Prior failure to appear in the past 2 years	No	0	
	Yes, just 1	2	
	Yes, 2 or more	4	
Prior failure to	No	0	
appear older than 2 years	Yes	1	

The PSA converts the total number of FTA points to a final, scaled score ranging from 1 to 6.

New Criminal Arrest (NCA)

NCA refers to a person being arrested while on pretrial release. It includes both a custodial arrest and an arrest by citation or summons.

New Criminal Arrest Points			
PSA FACTOR	RESPONSE	POINTS	
Age at current	23 or older	0	
arrest	22 or younger	2

Poll Question

Has your jurisdiction completed a local validation of the PSA?

- 1. Yes
- 2. **No**
- 3. Not Sure

Release Conditions Matrix (RCM)

Release Conditions Matrix

- Matches pretrial release conditions to a person's scores on the PSA
- Developed locally with stakeholders
- Designed to help judicial officers use PSA results to make decisions that:
 - address people's PSA scores
 - align with state law and local policy
- Can help pretrial agencies assign appropriate monitoring levels that:
 - take into account available pretrial resources
 - are consistent with the risk principle and pretrial research

Discussion Question

Thinking about the PSA, RCM, and Pretrial Report, consider the following:

- 1. How can this information help guide judges' pretrial decisions?
- 2. How can this information help pretrial staff provide effective pretrial monitoring?

Implementation Challenges

Frequency of Failure

Implementation experts note that up to **85%** of change initiatives fail to achieve their desired outcomes due to flawed implementation.

Implementation Challenges

OPERATIONAL

ASSESSMENT REPORTING

ADMINISTRATIVE

Operational

- Integrating technology
- Reading criminal history and scoring the PSA
- Confirming pretrial failure to appears

Assessment Reporting

- Clarifying what the Court expects to ensure the report is meaningful and used
- Finalizing a standard report template
- Determining whether any additional ("other") information should be included

Administrative

- Providing ongoing training for new judges, attorneys, and other key stakeholders
- Establishing consistent
 messaging so all stakeholders
 share the same understanding of
 the PSA
- Developing strategies to withstand funding cuts

California-Specific Violent Offense List

Public Safety Assessment Tool (PSA) Violent Offense Flag UPDATED FINAL VERSION 9/29/25

The schedule is for use when scoring the Public Safety Assessment (PSA) Risk Assessment Tool.

When the schedule refers to a section, it includes all subdivisions (e.g., PC 245 = 245(a)(1), (a)(2), (a)(3), etc.). When the schedule refers to a specific subdivision within a section, only the subdivision is included (e.g., PC 368(b), (c) and (f) are on the schedule, but 368(d) and (e) are not).

For the purposes of completing the PSA, an offense is categorized as violent if a person causes or attempts to cause physical injury through use of force or violence against another person. To ensure fidelity to the PSA and consistency with its underlying research, this definition *must* be used. You may not use a different definition based on state law or local policy.

PSA Scoring App

PSA Scoring App The Public Safety Assessment (PSA) is an actuarial pretrial assessment that predicts failure to appear in court pretrial (FTA), new criminal arrest while on pretrial release (NCA), and new violent criminal arrest while on pretrial release (NVCA). The PSA generates scaled scores of 1 to 6 for FTA and NCA, and may generate a flag to indicate whether a person presents an elevated likelihood of NVCA. When used responsibly and with fidelity, the PSA promotes transparency and consistency, and supports improved pretrial outcomes. The PSA Scoring App automates the PSA and integrates a jurisdiction's Release Conditions Matrix, which is used to associate release conditions with PSA scores. The PSA Scoring App also prepares a pretrial assessment report that includes a person's PSA results as well as the presumptive pretrial release level recommendation based on a jurisdiction's matrix.
